

Will's Favorite Online Song Spots

The Learning Groove - www.thelearninggroove.com - Eric Litwin & Michael Levine's website. Very complete site that includes audio, some video, lyrics and sheet music.

Jbrary - www.youtube.com/user/Jbrary/videos - Two Juv. Librarians that share plenty of songs, fingerplays and stories on their YouTube channel.

Ghoulie Games - <http://games.greenghoulie.com/games/index.html> - A longtime camp counselor and his friends share their favorite camp songs. Lots of call back and interactive songs can be found here.

The Learning Station - www.thelearningstation.com - Children's musicians that have multiple CD's as well as a YouTube channel with many of their songs featured.

Mac Scouter - <http://www.macscouter.com/songs> - A great song resource made for scouting organizations. The only downside to this site is that it is lyrics only. Typically if a song looks entertaining, I will search it out on YouTube or come up with my own tune.
